

Roller Chains With CE Attachment 1

Features & Advantages

- HDS Agricultural roller chains are built with special steel rollers enhancing rotation on the bushing while reducing risk of wear and tear on the sprocket
- Optimized Heat Treatment Process
- All chain components are well surface-treated to achieve maximum strength and wear and fatigue resistance
- Agricultural chains are precisely Pre-loaded during manufacturing to minimize its initial elongation and improve its performance dramatically
- Chain plate: Made of high-quality medium carbon steel
- Electric plating technology makes our agri chains even stronger and more impact-resistant, increasing the durability and load-bearing features of Carbon Steel, which is a good choice to make as well
- Environmental protection super wear-resistant grease imported from Germany
- All components are manufactured to exact tolerances to provide optimal performance
